

SINCE
1930

WORLD LEADER IN MACHINE TOOL MANUFACTURING

As Italian-based firm we become an
outstanding producer of equipment for the

FORGING INDUSTRY

Automotive industry
Road transport
Tools
Petrochemical industry
Bearings

Hardware
Agriculture
Earth moving
Kitchenware
Aerospace

Watchmaking
Trains and railway
Energy
Medical
Mechanics in general

PRESSES

DD Direct drive screw presses

PVX Friction screw presses

HF Hydraulic presses

MF Mechanical eccentric presses

SHEARING LINES

CADDY Mechanical cold & warm shearing lines

CTCH Hydraulic hot shearing lines

CODEBRASS Mechanical cold & warm shearing lines for brass

SAWING LINES

S High speed disc sawing machines for round and square bars

STL High lubrication disc sawing machines for super alloys

SP High speed disc sawing machines for pipes

VS High speed disc sawing machines for tubes, flat bars and miscellaneous profiles

AUTOMATION

R2 Articulated robots with 4 axes

R6 Articulated robots with 6 axes
